

Angel's Touch Healing, LLC

Reiki and Energy Healing through the hands of an experienced Physical Therapist

PAM WARGIN BIOGRAPHY + CREDENTIALS

About Pam Wargin

A calm, intuitive, relational Physical Therapist (PT) and Reiki Master with more than three decades imparting the power of human touch to promote healing, Pam Wargin offers healing Reiki sessions through her practice of Angel's Touch Healing, LLC to help her clients become restored to balance, wholeness, and health.

Throughout her career, Pam has become attuned to the fact that healing is much more than physical – healing is a process that involves physical, mental, spiritual, and emotional factors. By integrating her experience as both a PT and a Reiki Master, Pam's gentle touch and intuitive nature allows her to discern and release the heaviness her clients carry from the stressors of daily life. Through releasing blockages and restoring the body's natural flow of energy, Pam provides her clients with an experience of deep relaxation and stress relief that promotes health and wellness.

Uniquely skilled in the integration of using both traditional physical therapy techniques along with the healing powers of human touch through Reiki, Pam is eager to serve those around her to help them move forward on their path in life with love, light, and purpose.

Physical Therapy Experience

Throughout her more than 30 years practicing as a licensed, physical therapist, Pam served in various roles ranging from implementing active patient care and designing optimal maintenance care plans, to managing programs and staff. In her roles with various hospitals, outpatient clinics, and at-home care services, she has assessed vital signs, musculoskeletal, neuromuscular, and cardiopulmonary abilities and deficits of patients. She has also collaborated with patients and medical specialists to design, implement, and manage optimal care plans and maintain patient wellness and function. Additionally, she has evaluated and provided care for patients with spinal dysfunctions and shoulder and lower extremity injuries, and a wide variety of orthopedic, neurological, medical, and post-operative surgery needs.

Reiki Practitioner Experience

Since becoming a Reiki Master in 2011, Pam has been performing Reiki sessions on family and friends. In 2017, she expanded her services and began her practice of Angel's Touch Healing, LLC, where she uses gentle touch to channel universal life force energy throughout the body. Pam brings a holistic approach to health and wellness by incorporating manual physical therapy skills into Reiki sessions, as appropriate, to reduce stress and increase relaxation, and restore the body to balance, wholeness, and health.
